The "Housing Europe meets Solar Decathlon 2014 Jury"

A team of Jurors coordinated by Housing Europe, composed by high-level Housing Experts including Directors of both National Federations and Local Housing Companies, Technical & Building Physics Experts and Specialists in housing regeneration programmes, fuel poverty and innovative approaches to working with low-income and vulnerable households, evaluated the 20 proposed projects and awarded the "Housing Europe meets Solar Decathlon Europe 2014 Award - For a Fair Energy Transition in the EU".

Below you will find the list of Jurors with their short academic and professional backgrounds:

Georges Bullion - President of the Jury, Chair of the Housing Europe Sustainable Urban Working Group and Director of Dynacité, France

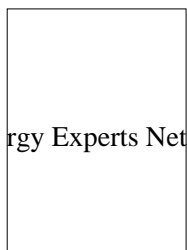

Georges Bullion is Director General of Dynacité, a French social landlord managing 24,000 dwellings in the Rhone Alps region.

At national level, George is a member of the Executive Committee of the USH - L'Union Sociale pour l'Habitat and Chair of the Working Group "Prospective Territoriale". At European level, Georges chairs the Housing Europe Working Group on Sustainable Urban Development. George is also President of Messidor, an association working for the rehabilitation of people experiencing psychic trouble by helping them getting a job and find their place in the society.

Marco Corradi - Chair of the Housing Europe Energy Experts Network and President of ACER Reggio Emilia, Italy

Marco Corradi is President of ACER Reggio Emilia, the Public Housing Company of Reggio Emilia since 2005, furthermore, in 2009, he was also appointed coordinator of all the ACERs of the Emilia Romagna Region. Within Housing Europe, Marco is President of the permanent Working Group on Energy, a network gathering experts from National/Regional Housing Federations from all across the EU in order to carry out lobby and research activities and promote the sharing of best practices.

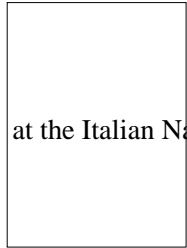

As a Social Housing and Energy Expert, Marco took part in several TaskForces and Working Groups both at

EU and National level, aiming at developing the green economy in the public, cooperative and social housing sector. He is also regularly invited to deliver presentations at national and international conferences, universities and training centres, TV and radio programs; his contributions are also reported in newspapers, specialised press and technical publications.

Arno Schmickler - Independent Consultant at the National Housing Federation (NHF), England

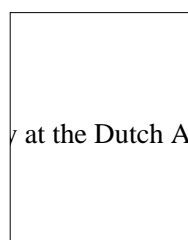

Arno leads for the National Housing Federation on European policy, regulation and funding. With a particular interest in innovative financing models for social housing he recently worked with the European Investment Bank to develop a social housing retrofit loan fund which would provide finance to undertake energy efficiency improvement works. This evergreen fund is aimed to create a strong market and supply chain opportunities, thus enabling local companies – in particular SMEs, including social enterprises – to invest in skills development and apprenticeships to deliver energy efficient homes.

Prior to joining the Federation Arno has worked for the South East England Development Agency in regional planning, research and innovation. During his early career as an architect and town planner in Germany he was in charge of delivering an innovative office building with 120 work stations using geothermal power in a low energy context.
