

VISIT OF EXEMPLARY BUILDINGS IN THE BRUSSELS CAPITAL REGION

An initiative of the Brussels Capital Region

Co-funded by the Intelligent Energy Europe Programme of the European Union

Brussels, September 19th, 2013

Visit organised for CECODHAS Housing Europe

Rue d'Ostende

Locquenghien

Use of public transportation

A standard bus is equivalent to 50 cars and an articulated bus to 75 cars. For daily transit, public transportation is often more frequent and less expensive than taking the car without necessarily making the travel time longer.

Waste management, reduction of paper use and use of recycled paper

Did you know that the production of 500 sheets of paper represents 2,9 kg in CO₂ emissions, equal to the emissions of a car running over a distance of 17 km?

Program of the visit

09:00 **Meeting at the CECODHAS offices**

Meeting point : 18, Square de Meeûs, 1050 Brussels

09:15
